Article - Computer-Based Test (CBT) for the PE Civil Exam

The National Council of Examiners for Engineers and Surveyors (NCEES) has changed the traditional paper and pencil (P&P) test, to a Computer-Based Test (CBT) for the Fundamental of Engineering (FE) and the Principles and Practice of Engineering (PE) exams.

Advantages of a CBT:

- This allows the NCEES to get the results back to examinees within typically 7-10 days
- The CBT will save the examinees the cost of purchasing the design **standards** (i.e., ACI 318, ASCE 7-10, AISC, etc.), since these standards will be provided by the NCEES electronically on the day of the exam.
- The NCEES will provide an electronic **handbook** (version 1.1), which cover the topics that are needed to answer the questions.

The following are items that *did not* change from the traditional P&P test to the CBT:

- Topics
- Preparation needed
- Fees
- Type and style of the questions

The following are items that *did* change from the traditional P&P test to the CBT:

- Time: The overall duration is the same. However, the new CBT PE allows you to split the time unevenly between the breadth and the depth portions.
- Materials: The new CBT is mainly based on the NCEES **handbook** and **standards**. All the materials are going to be available during the day of the exam. The **handbook** is downloadable in advance on the official website of the NCEES under “Useful Documents”. The **standards** are not available until the day of the exam.

What should you do to maximize your chance of passing the CBT PE Civil Exam?

- Make sure you are **fully** familiar with the **handbook** as well as the **standards**
- Use the principal of the “4T’s”: “T1” is familiarize yourself with the **Terms**, “T2” is to build your own **Templates**, “T3” is **Time** management, and “T4” is to **Trust** yourself

- Opened in 2002
- It passes over N302 Road
- The depth of water is 3-meter (9.84 feet)
- Unlike conventional solutions (i.e., vehicle bridge or a vehicle tunnel), Engineers decided on a different approach: a “water bridge”.
- There are also pedestrian crossings on both sides of the waterway
- The road connect mainland Netherlands to the Flevoland island, which is the **largest artificial island** in the world.

HOW TO START NAAAEA CHAPTER IN YOUR STATE

Policy and Guideline on How to Start NAAAEA Chapter in your State

Follow the following steps and guidelines

1. Review the NAAAEA By-Laws. Specifically see “ARTICLE II – CHAPTERS, RULES AND REGULATIONS”. The NAAAEA bylaws can be found online <https://nationalaaaea.org/> under the “ABOUT US” tab.
2. For a chapter to be formed, a group of at least 10 Arab American Engineers, Architects, or Information Technology professionals need to show interest in forming a chapter of NAAAEA (per Article II, Section 2 of the By-Laws)
3. The 10 professionals need to submit a petition to NAAAEA requesting to be recognized as a Chapter in their geographical area of the United States.
4. After NAAAEA approve the Chapter, the group needs to form a not-for-profit organization and register it in their State.
5. The group will need to apply for their own 501 (c)(3) designation from the Internal Revenue Service.

Other Action items:

1. Elect officers from the group
2. Draft your own By-Laws (the National Board can assist)
